|  |  |  |  |  |  |  |  |  |  |  |  |  |
|  |  |  |  |  |  |  |  |  |  |  |  |  |
| Ready Sum＝62．2 NUM |  |  |  |  |  |  |  |  |  |  |  |  |

Next, click on the chart wizard button

## Select Scatter

## Select Next

Select Next, then fill in Title, and X and Y axis information

Select Next, this will insert it into the sheet

Example of Graph

Next click on any of the data points and then select Chart, then Add Trendline

Select Linear for the type

Than select Options, and check the "Display equation on chart" and click OK

You will then get the information displayed. From here you can print or cut and paste it into a blank document for printing. If you want you can also click on the regression equation and move it on the plot to make it easier to read
